

## Invitation to the HM Digital Edition 2021 – Cost Reduction for Conveyor Applications

**REGISTER NOW**

# #HM21: Digital Edition

12 - 16 APRIL 2021

Come visit us from **12-16 April** at the **Hannover Messe 2021 Digital Edition**. At our virtual booth you will find out how you can greatly reduce your wiring costs thanks to the ASi cable, and how to:

- create a smart network of safety devices
- drastically reduce costs with our conveyor and drive solutions
- achieve an optimal IO-Link connection to the control system with our modules

### Expert chat and free exhibition ticket

Our experts look forward to chatting with you in detail. Secure your free exhibition ticket [here](#).

### In the current issue of the AS-INTERFACE MASTER NEWS you can already read about

- how to substitute Ethernet in the field easily and cost-effectively with ASi-5
- why our passive safety technology up to SIL3 saves you costs
- how you can benefit from the new generation of 30 V power supplies and from the modern ASi-5/ASi-3

addressing device

Best regards,  
Bihl+Wiedemann

Questions about our products and solutions?

We would be happy to assist you.
