

## AS-i/IO-Link Modules now even better

The AS-i/IO-Link modules from Bihl+Wiedemann now work even better with the IO-Link devices from many vendors – including binary actuators and sensors as well as analog sensors. Profit from the improved interoperability of the modules with IP67 protection and 4 IO-Link Class A Ports ([BWU2853](#)) or 4 IO-Link Class B Ports ([BWU3020](#)).

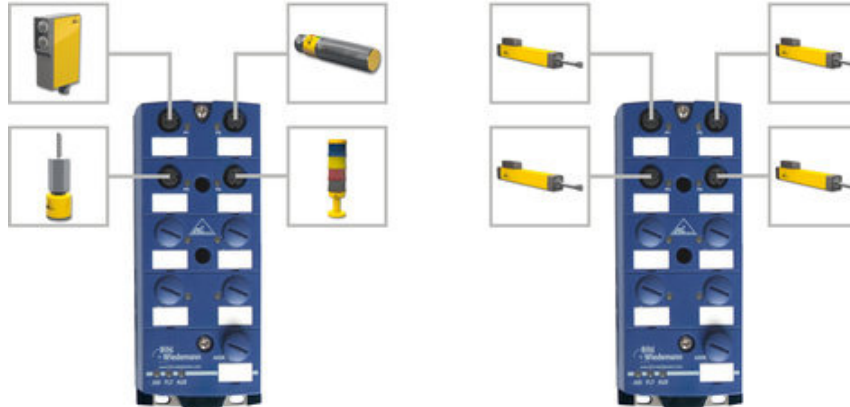

Fig.: AS-i/IO-Link Modules, IO-Link Master – available with 4 IO-Link Ports Class A ([BWU2853](#)) or Class B ([BWU3020](#)) – perfect compatibility with the IO-Link products from many manufacturers

### AS-i/IO Link Modules

- Improved interoperability with IO-Link products from many manufacturers
- Master with 4 IO-Link Ports
- 2 single slaves in one housing
- IO-Link Class A ([BWU2853](#)) or IO-Link Class B ([BWU3020](#))
- IO-Link ports are supplied via AUX ([BWU2853](#)) or AS-i ([BWU3020](#))
