

Multiple benefits – Active distributors from Bihl+Wiedemann

The active distributors from Bihl+Wiedemann will let you make **any sensors and actuators bus-capable**. The uniquely compact form factor is optimized for cable ducts and especially suited for individual cable routes.

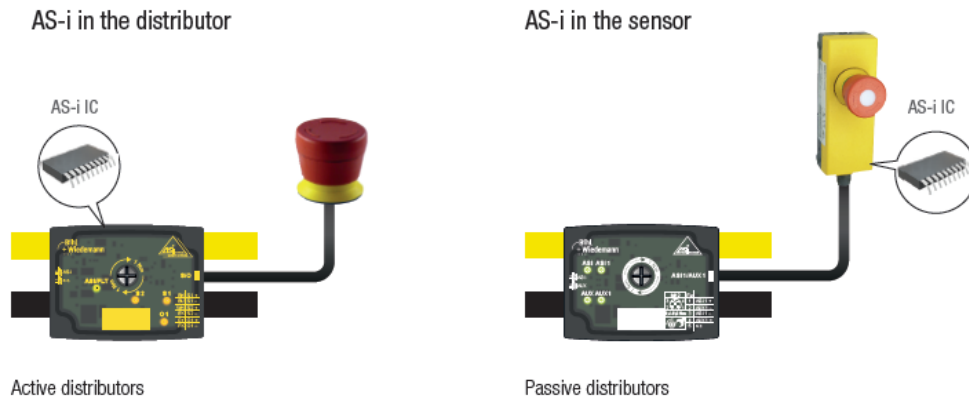

Fig.1: Active distributors, AS-i in the distributor (left); Passive distributors, AS-i in the sensor (right)

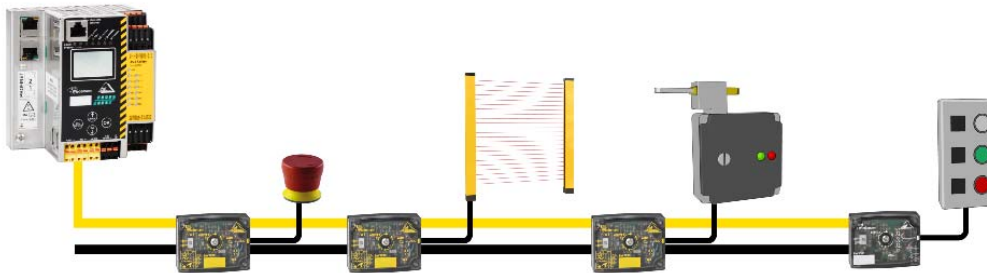

Fig.2: Active distributors: Make any sensors and actuators bus-capable

Benefits of the active distributors

- Connection of any sensors and actuators
- Make standard sensors and actuators AS-i capable
- Up to protection rating IP67
- Extremely flat design (W × H × D: 60 × 45 × 19 mm)
- Sensor/actuator connection M12, M8, Push-In terminal or connecting wires
- AS-i cable length: Cable between active distributor and components does not count on the network length
- Round cable length: 0,25 m, 0,6 m, 2 m, 5 m or according to customer requirements
